

Integrated Campaign Plan: Bloom Dental Studio

1. Campaign Overview

Campaign name:

Bloom Dental Studio - 60-Day New Patient Consultation Campaign

Campaign type:

Lead generation and appointment booking campaign.

Primary channel:

Meta ads on Facebook and Instagram.

Primary destination:

GHL landing page with New Patient Inquiry form and booking calendar.

Primary offer:

Free 30-minute new-patient consultation.

Secondary offer:

Premium In-Chair Whitening at PHP 15,000 per session.

2. SMART Goal

Book 60 confirmed new-patient consultations within 60 days through a dedicated GHL landing page, inquiry form, and automated booking/reminder workflow.

Success metric:

Confirmed appointments in the Bloom Dental GHL calendar.

3. Audience

Primary persona:

Busy BGC/Makati professional, age 28-45, appearance-conscious, income-stable, and interested in improving their smile.

Main objections:

- "I do not have time."
- "I do not want to be pressured."
- "I want to know what this costs."
- "I need to trust the clinic first."

4. Campaign Message

Book a free 30-minute consultation to understand your smile options without pressure or surprise pricing.

5. Channel Roles

Meta ads:

Drive cold and retargeted traffic to the GHL landing page.

Landing page:

Explain the free consultation offer and reduce trust, time, and price concerns.

GHL form:

Capture contact details, service interest, and SMS consent.

Calendar:

Convert interest into a booked appointment.

Email:

Confirm bookings, remind patients, and explain next steps.

SMS:

Send fast appointment reminders and no-show recovery messages.

Workflow:

Move contacts through the correct stages and trigger the right messages.

Dashboard:

Track whether the campaign is producing booked consultations and whitening revenue.
