

## WS-00 Business Case Intake Worksheet

Libre Academy Fast Track Workshop | Pre-Workshop Prep Sheet

**How to use this sheet:** Before the workshop, fill in what you know about your client's business. You do not need exact numbers -- write in plain English. At the start of each activity you will copy your notes into a short paragraph and paste it into the Claude skill. This sheet is a thinking aid, not a required format.

### 01 Business Who are they and what do they do?

| Your Notes                                                                                        | Example: Bloom Dental Studio                                                                                                                                                                                     |
|---------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Business name:<br>Bloom Dental Studio                                                             | <i>Bloom Dental Studio</i><br><i>Dental clinic -- cosmetic and general dentistry</i><br><i>2+ years operating in Bonifacio Global City</i><br><i>Owner-operated by a licensed dentist; small front-desk team</i> |
| Type of service:<br>Dental clinic specializing in cosmetic and general dentistry                  |                                                                                                                                                                                                                  |
| Years / months in operation:<br>About 3 years operating in Bonifacio Global City                  |                                                                                                                                                                                                                  |
| Who runs it (owner, team size):<br>Owner-operated by Dr. Chloe Reyes with a small front-desk team |                                                                                                                                                                                                                  |

### 02 Offers What do they sell and at what price?

| Your Notes                                                                                   | Example: Bloom Dental Studio                                                                                                                                          |
|----------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Entry offer + price:<br>Free 30-minute new-patient consultation                              | <i>Free 30-min new-patient consultation (entry)</i><br><i>PHP 15,000 Premium In-Chair Teeth Whitening (upsell)</i><br><i>PHP 3,500 six-month cleaning (retention)</i> |
| Main upsell + price:<br>Premium In-Chair Whitening, PHP 15,000 per session                   |                                                                                                                                                                       |
| Recurring / retention offer + price:<br>Six-month cleaning and check-up, PHP 3,500 per visit |                                                                                                                                                                       |

### 03 Ideal Customer Who is the perfect client?

| Your Notes                                                                                                                                    | Example: Bloom Dental Studio                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Age range + lifestyle:<br>Busy professionals, age 28-45, appearance-conscious and time-poor                                                   | <i>Working professionals, aged 28 to 45</i><br><i>Monthly income PHP 80,000 to PHP 200,000</i><br><i>Bonifacio Global City area</i><br><i>Self-conscious about smile; avoids dentists due to past hard-sell experiences</i> |
| Job / income level:<br>Finance, tech, corporate, and similar BGC/Makati professionals with disposable income                                  |                                                                                                                                                                                                                             |
| Location:<br>Bonifacio Global City and nearby Makati                                                                                          |                                                                                                                                                                                                                             |
| Main goal or pain point:<br>Wants a more confident smile but hesitates because of pricing uncertainty, fear of pressure, and booking friction |                                                                                                                                                                                                                             |

### 04 Current Bottleneck What is not working right now?

| Your Notes                                                                                                                                                                                                                                                                                                                                                                                | Example: Bloom Dental Studio                                                                                                                                                                          |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Where leads come from:<br/>Website inquiry form, word of mouth, Instagram/Facebook, and some Google Search</p> <p>Booking or no-show problem:<br/>Around 20 monthly leads, only about 6 book; no-show rate is around 35%</p> <p>Tools or process gap:<br/>GHL exists but is mostly used as contact storage; follow-up, reminders, workflows, and pipeline are not fully configured</p> | <p><i>20 leads/month via website form; only 30% actually book</i></p> <p><i>35% no-show rate; no automated reminders</i></p> <p><i>Manual front-desk follow-up; no CRM or automation in place</i></p> |

## 05 Goal What does success look like -- with a number and a deadline?

| Your Notes                                                                                                                                                                                                                                                                                                                                                                   | Example: Bloom Dental Studio                                                                                                                                                               |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Primary goal (number + timeframe):<br/>Book 60 confirmed new-patient consultations within 60 days</p> <p>Secondary metric (optional):<br/>Reduce no-show rate below 15%; convert 40% of completed consultations into whitening bookings</p> <p>Anything that must NOT happen:<br/>Avoid hard-sell language, unclear pricing, spammy follow-up, or SMS without consent</p> | <p><i>60 booked consultations in 60 days</i></p> <p><i>No-show rate below 15%; 40% whitening attach rate</i></p> <p><i>No discounting; no desperate follow-up that feels like spam</i></p> |

## 06 Brand Voice How does the business sound?

| Your Notes                                                                                                                                                                                                                                                                                                                               | Example: Bloom Dental Studio                                                                                                                                                 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Voice adjectives (e.g. warm, confident):<br/>Warm, professional, reassuring, transparent, polished</p> <p>What to avoid in copy:<br/>Fear-mongering, pressure, vague pricing, exaggerated promises, aggressive discounting</p> <p>Any tagline or phrase they always use:<br/>Pressure-free guidance and transparent smile options</p> | <p><i>Warm, professional, confident</i></p> <p><i>No dental fear-mongering; no hard sell; no vague pricing</i></p> <p><i>Transparent pricing is a core brand promise</i></p> |
